

PA 2 TRAINER

Semi-automatic RSC type box former that can be used as a filling table. Easy to adjust to work with different box formats, it can be integrated into a small filling cell or complemented with a sealing machine. It is the ideal instrument for ergonomic and safe work.

PA TRAINER

TECHNICAL DATA

Total weight	77 kg
Air consumption	Approx. 2.5 l/box
Air pressure	5 - 6 bar

Measures	L	1205 mm
	TO	670 mm
	H	822 mm

BOX SIZE

	MINIMUM	MAXIMUM
Broad	170 mm	500 mm
Long	250 mm	650 mm
High	Same as the sealing machine	

OPTIONS

Integration into roller sections	ÿ
Wheels with brakes on the legs	ÿ
Different box sizes	ÿ
Stainless steel version	ÿ
Galvanized version	ÿ
Pneumatic system for closing lower flaps	ÿ
Pneumatic pusher to evacuate the box	ÿ
Built-in filter and lubrication unit	ÿ
Pressure gauge with general flow regulator	ÿ
Speed adjustment of the pusher that evacuates the boxes	ÿ
Manual cycle, box by box	ÿ
Automatic cycle, to form boxes without time for filling	ÿ
Height adjustable legs	ÿ
