

# Famjet MAKRO PLUS

NEW

## WHAT'S NEW ?

Glass touch screen panel, solvent proof

New I/O port supports  
(8 inputs and 5 outputs)

IP53 protection

LAN, RS232

Scanner customized protocols

I/O connectors

FAMJET MAKRO industrial ink-jet printing system is designed for marking any material and a variety of types of substrates such as pipes, bags insulation sleeves, fabrics, extruded packing, using the electromagnetic drop-on-demand technology (DOD).

His technology has a performance record of solving the most challenging, industrial and packaging coding applications.

All FAMJET MAKRO series print-heads are suitable for a wide range of inks, such as water-based, mek-based, alcohol-based and pigmented.

This printing system is especially designed to meet requirements in harsh ambient condition such as dust, humidity, vibrations, large variations in temperature and aggressive substances.

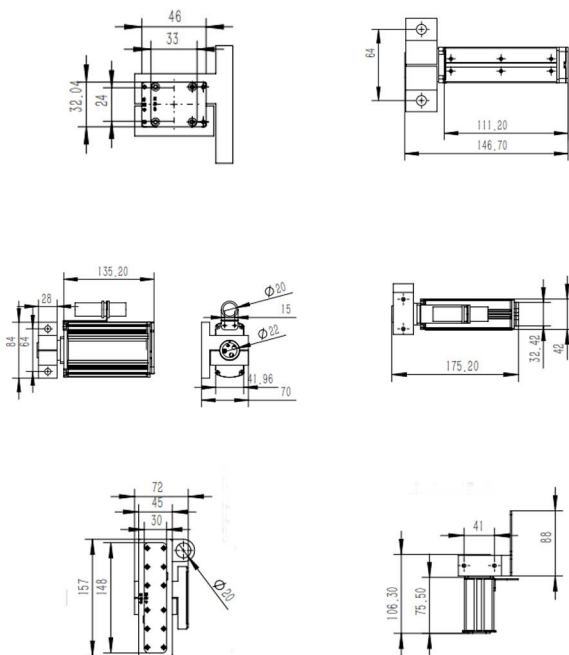

# Technical Specifications Famjet Makro Plus

	<p><b>Printing height:</b> 7 dots height is 24mm 16 dots height is 60mm 32 dots height is 128mm</p>		<p><b>Display:</b> Touch Screen 7"</p>		<p><b>New Features:</b> Print from Scanner Database from LAN Message Selection from I/O</p>
	<p><b>Printing capabilities:</b> Text, variable informations alphanumeric characters, logos</p>		<p><b>Printing Speed:</b> 60m/min</p>		<p><b>Consumables:</b> Water, Ethanol or Mek based</p>
	<p><b>User Interface:</b> USB, Ethernet, Wi-fi (optional)</p>		<p><b>Voltage:</b> AC:110v-220vAC 50-60Hz 1A: 15v, 2A</p>		<p><b>Memory:</b> 16GB, 32GB (optional)</p>
